LA. WHITES PROTEST REMOVAL

Transfer Being Fought by Both Groups, as FSA Gets Itself Tangled Up.

LAKE PROVIDENCE, La., Oct. 27—White tenants in Thomaston, a Farm Security Administration settlement near here, have protested against the government's plan to have them move out so Negro families can be moved in from Transylvania, another FSA settlement 60 miles away. The whites say they are content to live in Thomaston with Negro families. A petition has been signed and sent to Louisiana congressmen and senators protesting against the transfer.

The transfer of Negroes from Transylvania to Thomaston was ordered by Dr. Will W. Alexander,

director of the FSA because, he said, his information indicated better facilities at Thomaston.

According to an investigation completed recently by the Lake Providence branch of the National Association for the Advancement of Colored People, Thomaston lacks facilities for Negroes, particularly schools. There is said also to be some 6,000 fewer acres of land at Thomaston than the total cited by Dr. Alexander.
